Academi is an American private military company founded in 1997 by former Navy SEAL officer Erik Prince as Blackwater, renamed as Xe Services in 2009 and known as Academi since 2011 after the company was acquired by a group of private investors. The company received widespread notoriety in 2007, when a group of its employees killed 14 Iraqi civilians and injured 20 in Nisour Square, Baghdad ...

### Academi - Wikipedia

Greywater is water that comes from laundry, bathing and dishwashing, among others. This type of water is usually treated at water treatment plants and can be reused by us, usually for toilets, washing cars and irrigation. Compared to blackwater, it doesn't have bacteria that are as harmful and dangerous.

Water is one of the three basic elemental types along with Fire and Grass, which constitute the three starter Pokémon. This creates a simple triangle to explain the type concept easily to new players. Water is the most common type with over 100 Pokémon, which are based on a wide variety of fish and other sea-dwelling creatures. As of Generation 6, Water has been paired with every other type.

Blackwater is an Elixir purported to be that of the Holy Grail with properties of healing, increased strength, and perhaps most polarizing of all an unnaturally long life span. King Arthur discovered a substance termed Blackwater, a material capable of giving its users incredibly increased strength, senses, and near-immortality. This substance was unable to turn the tide dramatically ...

The key difference between the two is that black water has come into contact with fecal matter. Fecal matter is a haven for harmful bacteria and disease-causing pathogens. Additionally, this waste doesn't break down and decompose in water fast or effectively enough for use in domestic irrigation without the risk of contamination.
