### Can Childhood Trauma Make the Body and Brain Age Faster ...

Bodymind is an approach to understand the relationship between the human body and mind in which they are seen as a single integrated unit. It attempts to address the mind-body problem and resists the Western traditions of mind-body dualism and dualism. The term bodymind is also typically seen and encountered in disability studies, referring to the intricate and often times inseparable relationship between the body and the mind, and how these two units might act as one. The field of ...

### Bodymind - Wikipedia

The dualistic theorists held that the body and mind were two different entities and were of different natures. On the other hand, the monistic theorists believed that the body and mind were not different entities and were of the same nature. Monistic theorists were again of two opinions.
