We have 1551 solutions for your book! Chapter:. Problem:

Chapter 13 Solutions | Organic Chemistry 7th Edition ...

Equilibrium cannot be established between the liquid and the gas phase if the top is removed from the bottle because the system is not closed; one of the components of the equilibrium, the Br₂ vapor, would escape from the bottle until all liquid disappeared. Thus, more liquid would evaporate than can condense back from the gas phase to the liquid phase.
