Recharging your A/C system with refrigerant can be a simple fix. Your owner's manual should indicate the type of refrigerant required for your vehicle. Most passenger cars or light trucks manufactured since 1995 were built for R-134a. O'Reilly Auto Parts carries R-134a refrigerant and oils formulated to work in your vehicle's A/C system.

R-134a | O'Reilly Auto Parts

The use of R134A prevented damage to the ozone layer. The refrigerant R134A is called tetrafluoroethane and is classified as one of the HFC gases from the other refrigerant variants. Today, R134A is commonly used in vehicle air conditioning systems, but it can also be used in refrigerators, freezers and other refrigeration equipment similar to R12.

R12 to R134a Conversion, Information & Necessary Parts

...

Finally, if a system is OFF and has approximately 10% of its full charge, as long as there is some liquid refrigerant in the system, the pressure gauges will still show the relevant pressure for the ambient temperature ie, 70psi at 20 C, the pressure will drop when there is only vapour in the system.

R134a Pressure Gauge Chart This chart details how ambient temperature correlates with the system refrigerant charge pressure, and how it affects high and low side psi readings. It can be used for recharging refrigerant, or to diagnose an a/c system based on pressure readings from your gauges.

R134a High and Low Side A/C System Temperature Pressure Chart

If the target environment is only moderately hot, and your use of the car is light, R134a will probably be fine. But if you live in a hot climate, want to daily-drive the car, and the car has a tiny-capacity A/C system which, even after modernization, may only perform marginally, you may want to consider sticking with R12. Which brings us to...
