Throughout the book, the events of history and the diplomatic struggle as played out by statesmen are related to balance-of-power theory as conceived by political scientists. Europe's Classical Balance of Power brings into the spotlight of scholarly attention an idea that has demonstrated great vitality in times gone by, that has worked behind the scenes in the conclaves of power, and that, under another name, has survived to influence twentieth-century diplomacy.

Europe's Classical Balance of Power: A Case History of the ...

The European balance of power is the tenet in international relations that no single power should be allowed to achieve hegemony over a substantial part of Europe. During much of the Modern Age, the balance was achieved by having a small number of ever-changing alliances contending for power, which culminated in the World Wars of the early 20th century. After the World Wars, European global dominance faded and the doctrine of European balance was replaced with a worldwide balance of power involv
