Support - Miller

Well, after a year or more of faithful service, I am having my first problem w/ my Spectrum 375. I get a pilot arc, but the "real" arc (plasma?) doesn't start. I've even tried cutting a short bar of clean 1/8" steel, with the ground aout 6" away from the arc. Nothing. I shut the unit off while I was cutting with a sawzall, and decided to try again.

Tool Review- Miller Spectrum 375 Plasma Cutter!!

I briefly checked the circuit schematic diagram in the Spectrum 375 manual (available at Miller's web site) to see how it handles 115 V/230 V. The machine includes a switch (S2) that switches two windings on the primary of a transformer (T1). With a 230 V supply, the switch connects the primary windings in series.

I have a spectrum 375 with no service manual. ????? i dont ...

The Miller Spectrum 375 X-TREME Plasma Cutter w/XT30 Torch 907529 and the Hobart AirForce 500i Plasma Cutter 500548 are very similar in there capabilities.Both have a rated cut of 3/8", both are dual voltage using the multi-voltage plug system, both are inverter based machines..

Miller Spectrum 375 X-TREME Plasma Cutter w/XT30 Torch 907529

The actual process of operating a hand-held air plasma cutter unit is relatively simple. In fact, the hardest part comes before ever striking an arc: selecting a machine that best matches your application and choosing the right accessories.
