Pleasure Johns Hopkins neuroscientist David J. Linden explains how pleasure affects us at the most fundamental level: in our brain. As he did in his award-winning book, *The Accidental Mind*, Linden combines cutting-edge science with entertaining anecdotes to illuminate the source of the behaviors that can lead us to ecstasy but that can easily become

explains what seemingly different experiences, from taking heroin to giving to charity, from overeating to orgasm, have in common: their impact on our brain's pleasure circuitry. These blinks reveal the way pleasurable experiences rewire our brains over time and explain the true nature of addiction.
