abiding interest in the topic.

Anthropology - Environmental and ecological studies in ...

Ecological anthropology focuses upon the complex relations between people and their environment. Human populations have ongoing contact with and impact upon the land, climate, plant, and animal species in their vicinities, and these elements of their environment have reciprocal impacts on humans (Salzman and Attwood 1996:169).

Ecological Anthropology - Anthropology

Environmental anthropology brings together faculty with specialties in the anthropology of science, archeology, heritage studies, medical anthropology, political ecology and political economy. The faculty cluster is broadly concerned with the ways that people grapple with political conditions that influence ideas and tensions about land, geography and

Environmental Anthropology | Department of Anthropology

Environmental Anthropology Ecological anthropology studies the relations between human beings and their environments. Its foundations were laid by Julian Steward in the mid-twentieth century. Steward emphasised the dynamic, two-way nature of the culture-environment relation, and the importance of the concept of adaptation in understanding it.
